

DFG Priority Program 1362
Porous Metal-Organic Frameworks

March 12-13, 2012

Topical Workshop for PhD students

MOF-Based Chemical Sensors

Department of Chemistry, University of Munich (LMU)

Topics: General introduction: chemical sensors
Opportunities and limits for the use of MOFs as chemical sensors
Different sensing concepts in the field of MOFs
Promising examples of MOF-based chemical sensors

Room: Building C, Floor 2, Room C 2.003 (Leipelt),
Butenandstr. 7, 81377 Munich

Local organization: Prof. Thomas Bein und Dr. Stefan Wuttke

For further information please contact Dr. Stefan Wuttke, stefan.wuttke@cup.uni-muenchen.de.
